

Ordering DNA Test Kits from The University of Missouri

To order a kit to have your dog tested for a specific mutation or mutations, please contact us via email at mucvmk9genetics@missouri.edu.

Please specify the breed of your dog and the test you are requesting (available tests are listed on our website).

We will mail you a buccal swab kit that includes a submission form for you to complete. Once we receive the sample and completed form, you can expect results via email within 10 working days.
