

1. Heather Dantzler: Heather does a great job in her role and goes above and beyond fostering a culture of comradery the lab. Due in large part to Heather, coming into the lab is fun and it feels like working with friends, not just coworkers. - Anonymous
2. Josh Hardesty: Josh is just amazing, always anticipating needs and getting things done even before I know they need doing! - Tamara Gull
3. Talia Elliott: I have watched Talia grow in their role over time and become a very skilled individual. They have taken more leadership over the role and become more and more confident with troubleshooting and discussing projects with the rest of the team. They do a fantastic job! - Anonymous
4. Karol Dinwiddie: Karol went from the quiet solitude of a one person outer office (with the occasional interruptions by me) to a three person office, new department chair, and a newly merged department, and has taken it all in stride! Sure, now they've got me in a three against one situation, but to be fair, Karol was winning the one-on-one administrative battles already! Appreciate you, Karol! - Tommy Thompson
5. Anne Chegwiddden: Kudos out to Anne for her positive attitude in moving from the comfort of her old office and department to join the new merged department and office location. I appreciate the attitude! - Tommy Thompson
6. Michele Zelaya: Michele is consistently awesome. She's our angry cat whisperer and can place a catheter in anything. She is kind and always willing to help, no matter how busy things get. Michele stays level-headed under stress and is a positive team player. She puts 120% into her work, her workplace, and her team-and it truly shows. She's deeply invested in creating efficiency for both her patients and her service. Her reliability in the clinic is one of her greatest strengths. We would love the opportunity to show her how much she is appreciated by nominating her for this award. - Anonymous
7. Eric Mathis: He is always willing to spend time with us to make sure we know how to use Ideagen. - Anonymous
8. Susan Leutschaft: Her way of communication and engagement towards the staff is admirable. - Anonymous
9. Klancey Vandeloecht: Klancey is amazing. She has taken on a massive role as a combined project manager/colony manager and customer service liaison. She works hard every day to keep everything running and has a wonderful witty sense of humor that we all appreciate. She is confident and approachable and always willing to stop and listen to what others have to say. She works well with every team member and brings a pawsitive attitude to everything. - Anonymous
10. Joni Lunceford: We are so lucky to have Joni. She has a calming presence in tense situations. She goes above and beyond for her department all the time. She helps maintain organization and tidiness around the modalities. I truly do not know what we would do with her. - Anonymous
11. Marie Schlup: Kudos to Marie for handling the drastic change in office location, department merger, and work assignments! I always appreciate her insight. Also, for her ability to put up with Tommy Thompson. Definitely not an easy thing to do! - Tommy Thompson
12. Allison Williams: There are not enough good things I could say about Alli! She is one of the most kind, caring, and compassionate people I know and she embodies all of the qualities that the VHC represents. She splits her time between x-ray, fluoroscopy, and occasionally MRI and is dedicated to ensuring all patients she works with receive the best quality care. Between her character and her unwavering work ethic, I absolutely believe Alli deserves this award! - Anonymous
13. Maranatha Prenger : She is just such a joy to be around and goes above and beyond for patient care. - Anonymous
14. Jesse Bowman: Jesse is an integral part of the bacti lab who keeps the lab running no matter what! - Tamara Gull
15. David Cozad: David missed the Bacti lab so much he had to come back after working elsewhere for 3 years; we really appreciate his return! Easiest "new employee" training ever and he fit right back into the workflow. - Tamara Gull
